To Whom It May Concern,

Re: Colin Dankowich
President, Senior Consultant
Caffcomm Systems Inc.

Colin and Caffcomm Systems has been engaged by Ellesmere X-Ray Inc over the past 9 months to provide consulting and IT support services to our multi-clinic radiology East GTA practice.

In his capacity as IT consultant and IT project management coordinator, he has provided invaluable advice, and services towards our RIS/PACS project implementation, which is now close to completion. We expect Caffcomm will continue in an IT support role thereafter.

We have found him to be professional, knowledgeable and reliable. His advice and suggestions are always appropriate and most importantly, he delivers on his commitments and is goal and result orientated.

IT projects are by nature multifaceted, and often complex. To consult and manage successfully requires a deep understanding of the various aspects of IT, financials and contract deliverables, timeline coordination, and human resources issues. Colin has demonstrated those skills admirably.

We have no hesitation in recommending him for such roles.

Yours sincerely

Dr. E. Yeung, MB, FRCP (C)
On Behalf of Ellesmere X-Ray Inc.
