To Whom It May Concern:

Re: CaffComm Systems Inc.

Colin Dankowich, the proprietor of CaffComm Systems Inc., has been providing IT support to the Temmy Latner Centre for Palliative Care since 1999. During this time, he has been reliable and extremely effective.

Any equipment we have purchased through him has been competitively priced, had good warranties and service contracts, and been appropriate to our needs.

CaffComm Systems has provided a high standard of support for all of our computing needs. Their fast response times and attention to detail has helped us grow, without incurring excessive information technology costs.

The Centre intends to continue doing business with CaffComm Systems and would have no hesitation in recommending their products and services to others.

Regards,

A handwritten signature in blue ink that reads 'D Adams'.

Deborah Adams, MA, MHSc
Program Manager
